Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 35-57, drawn to a process, classified in class 423, subclass 115+.
- II. Claim 58, drawn to paper, paint or lacquer, classified in various classes, and subclasses other than class 423 or 252.
- III. Claim 59, drawn to a flame retardant filler, classified in class 252, subclass 601.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

Inventions I and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Matthew M. Jacob on April 13, 2004 a provisional election was made without traverse to prosecute the invention of Group I, claims 35-57. Affirmation of this election must be made by applicant in replying to this Office action. Claims 58,59 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew M. Jacob on April 13, 2004.

The application has been amended as follows:

Cancel claims 58,59.

In claim 35, d), insert – then – before “optionally”.

In claim 35, d), delete "dehydration" and replace with – dehydrating --.

In claim 40, line 2, delete the first "oxide" and replace with – hydroxide --.

In claim 41, delete "mole a" and replace with – moles --.

In claim 45, line 1, delete "in".

In claim 47, delete "<" and replace with – less than --.

In claim 50, delete "hydrate" and replace with – salt --.

In claim 50, delete "<" and replace with – less than --.

In claim 51, delete "a member".

In claim 51, insert – and – before "carbonic".

In claim 51, delete "and salts thereof".

In claim 56, line 3, insert – and – before "carbonic".

In claim 56, delete "and salts thereof".
